中鋼運通公司成立於1996年，係中鋼公司百分百轉投資之航運公司，現有資本額為42.25億元，由成立之初的4艘海岬型船59萬載重噸為基礎，擴充到目前15艘海岬型及各類船隻共22艘總載重噸277萬公噸，為目前最大國輪船隊。

中鋼運通每年承運中鋼公司進口原物料約2,800萬公噸，洽租船舶每年高達240艘，並擴展國際運務承運外界貨載，其外貨營利佔總毛利一半以上，達成鋼廠船隊國際化的目標。近兩年來EPS均超過10元，於2004及2005兩年連續獲中華徵信評為國內服務業企業經營綜合指標排名第一。

中鋼運通雇用國籍船員341名，在國內航運公司名列前茅，90%以上船噸均為國內建造，後勤支援及配料均優先使用國貨，形成國內產業供應鏈，為經濟發展提供一己之力（詳如附圖）。

中鋼運通秉持照顧員工，善盡社會責任及愛護海洋生態的精神，以「尊重生命、尊敬海洋」為至高理念，務實落實安全衛生、環境保護及污染防治之各項防範措施。中鋼運通首艘新船建造開始，大部分海岬型船舶皆為雙重殼設計，可防患意外發生時燃油所造成之海域污染。於最近在台船建造已交船之3艘20萬噸級雙重殼散裝貨輪，更有分離水艙之裝置，在空放時貨艙不必壓水，可避開清艙排水可能造成的污染及時間損失，為目前最前衛之環保設計之船舶。中鋼運通也在2005年通過英商勞氏ISO14001與OHSAS18001驗證成為同時擁有ISO9001、ISO14001、以及OHSAS18001三合一管理系統的航運公司。

中鋼運通追求成長與卓越，並以善盡社會責任為己任。

CSE Corp. with paid up capital of NT\$ 4.225 billion, was established in February 1996 as a wholly owned subsidiary of CSC Corp. Starting with four capsize bulkers that had a total 0.59 million deadweight tons, CSE has undergone a fast expansion program during the past 11 years. It has reached its

present total of 2.77 million deadweight tons with a fleet size of 22 bulkers, 15 of which are capsize bulkers. CSE is also now one of the biggest national flag carriers and has a total of 9 ROC flagged vessels with 1.27 million dwt.

As an industrial steel carrier, CSE provides high quality transportation services for 28 million tons of raw material to its parent company with a chartered fleet of over 240 vessels. CSE and its operators have also expanded into the international market and for past two years it has made high returns: EPS over NT\$10 per share, with over 50% coming from international trading. CSE has reached its parent company's target by emerging as an international shipping company and in 2004 and 2005, it was honored with 1st place by China Credit Information Service Ltd for its Outstanding Business Performance among the top 5000 corporations in Taiwan.

With over 90% of its fleet tonnage built by CSBS Shipbuilding Corp in Taiwan, CSE employs 341 ROC seamen and always supports and gives priority to local industries. These includes banking, bunkering, designing, insurance, repairing and material supplies services in order to form an effective Local Supply Chain for promoting local marine economies. CSE is a socially responsible marine corporation and always endeavors to protect the marine environment together with its employees' welfare. Respecting Mother Ocean and treasuring human lives, CSE strictly enforces preventive measures, including safety policies for transportation, environmental protection, marine habitat and occupational health management systems in order to ensure safety at sea and a clean ocean environment. As a responsible shipping company, CSE obtained ISO9001 certificate from LRQA in 2000 and ISO14001 together with OHSAS18001 certificates from LRQA in 2005.

Most of CSE's fleet incorporates a double-skin design in order to reduce the possibility of bunker spill and environmental pollution. CSBC recently delivered 200,000 dwt bulk carriers for CSE, which are the most advanced designed GREEN BULKERS. They are equipped not only with double skins but also a segregated ballast tank system. This means no cargo hold ballasting is required during an empty voyage, which can shorten ballasting time and avoid any ballast water contamination of the ocean.

CSE is always looking to grow, but it strives to be a socially responsible corporation.
